

# GLASSCRAFT EMERGING ARTIST AWARD

.....

## JEREMY SINKUS

Jeremy Sinkus has been working with glass since 1998, but not as his first medium. Metals and stone were the main passions Jeremy followed until he found borosilicate glass. Jeremy is primarily self taught, which has given him the ability to develop a unique style. Jeremy is also an avid mineral collector and miner. He has dug and sold minerals all over the country, and has now incorporated this passion into his glass. From spending a lot of time either on mountains or on the ocean you can see the influence of opals and jaspers in the coloring of the glass, along with the aquatic themes.

.....

Glasscraft, Inc is not only an excellent resource for lampworking equipment and supplies, but now for learning lampworking techniques as well. Glasscraft, Inc's new state-of-the-art studio in Golden, Colorado offers classes from the most notable and knowledgeable instructors and artists in the industry. The Glasscraft, Inc Studio attracts students from around the country to their one-to three-day workshops. Please visit their website [www.glasscraftinc.com](http://www.glasscraftinc.com) for a current course schedule & more information.
